Meetings and Courses 2018

17-18
May

Workshop “New biotechnological drugs and biosimilars with focus on Danube and Adriatic-Ionian macroregion: a case for smart specialization in research and innovation”

Belgrade, SERBIA

Organiser:

Jelena Begovic (IMGGE, University of Belgrade, Serbia)

Co-organisers:

Marco Baralle and Natasa Skoko (ICGEB Trieste, Italy)

Contact begovicj@imgge.bg.ac.rs, barallem@icgeb.org, skoko@icgeb.org

Web <http://www.icgeb.org/serbia-smart-specialisation-2018.html>

The workshop aims at providing a forum for discussion between stakeholders, experts from the private sector, as well as from the public domain, to share knowledge and experience from the field of biosimilars and to formulate recommendations on national and regional level towards increasing smart specialization, competitiveness and strengthening the regional integration into European research and innovation programs. Topics will include:

- Biosimilar and generic pharmaceutical development
- Local manufacturing
- Smart specialization
- Technology transfer

Participants

- Attendance is by invitation. A limited number of seats will be available for scientists and policy makers involved in biopharmaceutical R&D and willing to present their current research/work
- Interested participants must apply online including their CV and motivation letter

Funding

- A limited number of grants to cover accommodation and meals will be available for selected participants holding strategic positions in government, educational and industry institutions who are nationals of an [ICGEB Member State](#)
- The grant will cover transport costs and hotel accommodation
